Live demo "Cyber Security Health Check"

March 17, 2017 | V.Toms and S.Haenen (GDI.Foundation) & R.Spoor (SURFnet)

Our first prototype of the dashboard is now live on the Internet.

URL: <https://osint02.thunderhost.nl/>

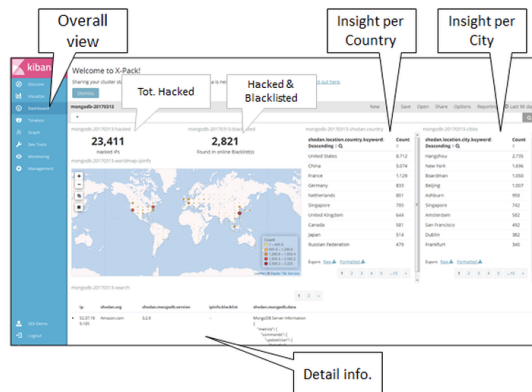

User: **gdidemo**

Pass: **gdidemo**

Any suggestions in improving the dashboard are always welcome. Please let us know and send an e-mail to sjors@GDI.Foundation. You can find more information about GDI.Foundation, our dashboard and the project on [Internet & Cyber Security Health Check](#).

Please note:

- The information in the demo is based on OSINT info, and only contains data of HACKED MongoDB world wide.
- The demo is active until 6 April 2017
- The demo works best on desktop & laptop
- Some browser extensions (e.g. Privacy Badger) prevent loading the map view properly. This can be fixed by unblocking/allowing "tiles.elastic.co" in the causing extension.
